A BIKE SHOP RUN FOR CYCLISTS
BY CYCLISTS

AND

FOR RACING CYCLISTS
BY RACING CYCLISTS.

Before you buy any form of bicycle lights or lighting, ask how many watts the lamps give and carefully consider if the answer is good enough for YOUR kind of night cycling.

Our sets give 3.6W front, 1.2 rear plus maximum reliability. And maximum safety.

In today's uncompromising traffic can you afford to have anything less than **NIGHTFARER** standards? Or for meandering along Britain's lanes and by-ways in the depth of winter, is there anything better than a strong headlight?

NIGHTFARER Mk 5

For those who take their night riding seriously.

£42.00 including battery charger, postage and transit insurance.
