NIGHTFARER

FOR EVERYONE WHO TAKES NIGHT RIDING SERIOUSLY

NIGHTFARER is the quality name in bicycle lighting. Our sets give a splendid 4 watts halogen front light, 1.2 watts rear light with unrivalled reliability. The battery, which weighs 3lbs uses two CYCLON cells that power the lights for a maximum of 3 hours. The cells may be expected to last about 1000 working hours and when worn out you can replace them yourself at reasonable cost (currently £4 each).

You have to recharge for four times the duration of your burn. However you can recharge overnight even if your discharge has only been shallow. It takes only seconds to attach the charger lead when you return home. In many

cases families find one charger adequate for several lighting sets.

Each set comes complete with battery, front and rear lamps, spare bulbs, spare fuses and clips for securing the battery cable. Simple fitting and operating instructions are included. NIGHTFARER is a product that is backed by spare parts too . . .

The set fits bicycles of all sizes but the down tube must have the standard 1 1/8" dia. The set is not suitable for habitual removal and replacement and is best left permanently fitted.

Before you buy any form of bicycle lighting, enquire how many watts the lamps give and

carefully consider if the answer is good enough for *your* kind of night cycling. In today's uncompromising traffic, can you afford to face darkness with anything less than NIGHTFARER standards? And for meandering through Britain's lanes and byways in winter, could you wish for anything better than a really good headlamp? Remember, the Mk6 set brings you all the improvements that have resulted from our continuous development programme since the first CYCLON powered NIGHTFARER set was launched in 1977 and which was the world's first mains rechargeable lighting system for bicycles.

GATES CYCLON Battery Cell Extraordinary

The heart of the NIGHTFARER concept is the Gates Cyclon battery cell. The battery uses two of these cells which have electrodes of pure lead in a wound-round format. It is an exclusive and proven technology, ideal for the demanding needs of the serious night riding cyclist. CYCLON is robust, is a beaver for work and is truly dry!

PRICE LIST

MK6 LIGHTING SET	£35.50
BATTERY CHARGER	£7.50

Postage and postal insurance included in these prices.

NIGHTFARER LIGHTING SYSTEMS
46 ARUNDEL ROAD, BROMSGROVE B60 2HN
